DETAILED ACTION

- This action is responsive to the following communication: Amendment After Final filed on 9/1/06.
- Claims 7-8, 10, 12, 22-23, 25, 27, 37-38, 40, 42, 46-50 have been canceled.

Allowable Subject Matter

Claims 1-6, 9, 11, 13-21, 24, 26, 28-36, 39, 41, 43-45 are allowed, renumbered as claims 1-33 (respectively).

The following is an examiner's statement of reasons for allowance: The cited prior arts (US 6552813 to Yacoub and US 6606163 to Suzuki et al) of record teach an apparatus/system/method for processing incoming print, but fail to teach and/or suggest print channel attribute associated with incoming print jobs (print channel attribute is MUST PRINT for print channels that provide bi-directional communication with a host and the print channel attribute is MAY SPOOL for Web Pull, Web Push, IPP, FTP, direct print ports, LPD, NetBios, Netware, and parallel type control modules) and in combinations of other features as cited in independent claims 1, 16, 31 (renumbered as 1, 12, and 23 respectively). The examiner found neither prior art cited in its entirety, nor based on the prior art, nor found any motivation to combine any of prior arts that teaches the above limitations and in combinations of other features as cited in independent claims 1, 16, 31 (renumbered as 1, 12, and 23 respectively).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
